MEMORADUM

TO WHOM IT MAY CONCERN

SUBJECT: Project Management Company (PMC), O&M Performance letter

This Performance letter is written to attest to the Projects Management Company (PMC) managing of the O&M contract for DynCorp International from 1 August 2008 to present.

PMC's performance has been outstanding throughout the contract period. The Managers, Supervisors and the onsite workers have always displayed a can do attitude, always able and willing to do what is necessary to get the job done.

PMC had 30 days to mobilize at the start-up, and through their s efforts and their aggressive management approach, they were able to mobilize on all 15 camps throughout the Iraqi theater of operation in a total of 16 days, this enabled us to start providing first class service to the customer on the very first day.

The supplies and materials have routinely made it to the camps on time; this is no small tasks when taking into consideration the area's that has to be travelled.

I am confident that PMC will do the best job possible for any client in any area, I am extremely pleased to have worked with PMC.

A handwritten signature in black ink, appearing to read "Stan Burton", with a long horizontal flourish extending to the right.

STAN BURTON

Contract Manager
